# U.S. EXPORT SALES

- Outstanding Export Sales  
(Unshipped Balances)  
On AUGUST 8, 1976
  - Export shipments in  
Current Marketing Year
  - Daily Sales reported  
AUGUST 9 - 17, 1976
- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of August 19, 1976 (based on reports from exporters for the week ending August 8, unless otherwise noted):

Wheat: Both new sales and actual wheat exports continue to lag behind the pace set for the first ten weeks of 1975/76. However, exports this past week were the second largest and sales the third largest for this marketing year. New sales included 116,000 MT to Japan, 100,000 MT to Nigeria, and 82,000 MT to Korea. Also, sales to unknown destinations rose by 197,000 MT. Also, reports of daily sales indicated 150,000 MT to East Germany and 100,000 MT to unknown destinations.

Grain Sorghum: Sales for the week were the fourth largest for the current marketing year. Sales of 121,400 MT to Poland and 24,500 MT to Japan highlighted the activity, bringing the total for the marketing year to within 3% of the USDA export projections of 5.7 million MT.

Corn: New sales for delivery during the year beginning October 1, 1976, continued at a rather brisk pace with a 830,000 MT increase from last week's total. The most significant increases occurred in sales to East and West Europe and Japan. Total sales now equal 28% of the 1976/77 export projection.

Sales activity for the marketing year expiring September 30, 1976, remains dull. Major buyers were the United Kingdom, Portugal, Poland, and Japan. However, export shipments are maintaining a rate which should easily insure the attainment of a record export year.

Cotton: Total sales increased this week continuing the brisk pace started in January. Korea and Canada were the dominant buyers. Korea bought a substantial quantity for shipment during the next marketing year as well as some for shipment this marketing year that will be financed under the recently announced \$40 million CCC Credit line.

Soybeans: Japan and Taiwan were the major buyers of both old and new crop beans during the week. Japan also accounted for nearly two-thirds of last week's export shipments. 1975/76 exports have nearly reached the USDA projection with about three weeks still remaining in the marketing year.

Soybean Oil Cake and Meal: Exports to Poland and Yugoslavia accounted for about half of total weekly outgo. Exports to the EC continued to decline as compounders reduced unusually large stocks of protein meal accumulated during February and March in advance of the imposition of the milk scheme.

Soybean Oil: Activity was minor in the soybean oil export market. An important development was the export of 14,700 MT of U.S. soybean oil to India, the first for the current MY. The sale was probably due to limited supplies of spot oil in competing countries (especially Brazil), and to the current competitive U.S. price. Around 10,000 MT remain to be shipped to India.

Rice, Rye, Barley and Oats: Showed no significant activity.

EASTERN EUROPE: Status of Export Sales of Grains, Soybeans and Soybean Meal  
As of August 8, 1976
